

生物多样性保护与零毁林政策

Policy on Biodiversity Conservation and Zero-deforestation

江苏长电科技股份有限公司（以下简称“长电科技”或“本公司”）积极对标并响应联合国可持续发展目标、《生物多样性公约》、《昆明宣言》和《中国生物多样性司法保护》等文件，以及海外运营所在地生物多样性保护与零毁林相关法律、法规、标准要求，将生物多样性保护与零毁林要求融入自身运营，在业务活动中开展生物多样性保护与零毁林行动。

Jiangsu Changjiang Electronics Technology Co., Ltd. (hereinafter referred to as “JCET” or the “Company”) actively aligns with and responds to international and domestic initiatives, including the United Nations Sustainable Development Goals (SDGs), the Convention on Biological Diversity, the Kunming Declaration, China’s biodiversity judicial protection framework, as well as applicable biodiversity conservation and zero-deforestation laws, regulations, and standards in jurisdictions where the Company operates. The Company integrates biodiversity conservation and zero-deforestation requirements into its operations and undertakes relevant initiatives throughout its business activities.

本公司生物多样性保护及零毁林工作由 ESG 委员会作为最高决策和监督机构，负责统筹、指导、决策和监督公司生物多样性保护相关政策制定与体系运行等相关事项。

The ESG Committee serves as the highest decision-making and supervisory body for biodiversity conservation and zero-deforestation efforts. It is responsible

for overall coordination, guidance, decision-making, and supervision of related policies and system implementation.

本政策规定适用于本公司及旗下子公司的所有业务与运营活动, 并鼓励周边社区、价值链伙伴遵循本政策, 共同保护自然生态环境。

This policy applies to all business activities and operations of the Company and its subsidiaries. The Company also encourages surrounding communities and value chain partners to adhere to this policy and jointly protect the natural ecological environment.

生态环境保护:

严格遵守各运营地有关生态保护的法律法规, 严格执行生态保护红线, 将生物多样性因素纳入前期项目建设评估, 确保长电科技的经营业务和项目选址、设备设施等规划布局应当符合规范要求, 减少生产经营对周边生态环境的影响, 合理开发利用自然资源, 保护生物多样性, 保障生态安全, 依法制定有关生态保护和恢复治理方案并予以实施。

Ecological and Environmental Protection:

The Company strictly complies with applicable environmental and biodiversity protection laws and regulations in all operating locations, and rigorously enforces ecological protection redline requirements. Biodiversity considerations are incorporated into early-stage project assessments to ensure that business operations, project siting, and facility planning meet regulatory requirements. The Company seeks to minimize environmental impact, promote the sustainable use of natural resources, protect biodiversity, and safeguard ecological security. Ecological

protection and restoration plans shall be developed and implemented in accordance with applicable laws.

提升全员生物多样性保护意识：

不定期对公司员工进行生物多样性保护培训，动员员工参与植树造林、科学放流活动等生物多样性保护工作。

Enhancing Biodiversity Awareness:

The Company conducts periodic biodiversity conservation training for employees and encourages participation in biodiversity initiatives, such as afforestation and scientifically managed species release programs.

生态圈合作：

与政府和监管机构、非政府组织、慈善基金会、地方社区和学术机构等积极开展合作，共同努力保护生物多样性。

Ecosystem Collaboration:

The Company actively collaborates with governments and regulatory authorities, non-governmental organizations, charitable foundations, local communities, and academic institutions to jointly promote biodiversity conservation.

利益相关方沟通：

与利益相关方沟通，了解他们的关切与需求，分享实践与经验。

Stakeholder Engagement:

The Company communicates regularly with stakeholders to understand their concerns and expectations, and to share best practices and experiences.

透明的信息披露：

主动披露在生物多样性保护方面的努力与成果，提高透明度。

Transparent Information Disclosure:

The Company proactively discloses its efforts and achievements in biodiversity conservation to enhance transparency.

森林保护与零砍伐承诺：

森林生态系统是最重要的生态系统之一，有显著的固定二氧化碳、缓解气候变化作用。长电科技致力于保护自然生态，积极参与森林保护行动。

公司承诺在业务开展过程中严格遵守运营所在地森林保护的法律法规。积极开展植树造林、绿色办公等文化活动，向公司员工传递森林保护理念。

鼓励周边社区、价值链伙伴（包括服务提供商、供应商、合作伙伴等）一同遵守运营所在地与森林保护相关的法律法规和相关强制性标准。

尊重当地社区和居民的合法权益，承诺合法有序地开展各项经营活动。

Forest Protection and Zero-deforestation Commitment:

Forest ecosystems are among the most critical ecosystems, playing a significant role in carbon sequestration and climate change mitigation. JCET is committed to protecting natural ecosystems and actively participates in forest conservation initiatives.

The Company undertakes to strictly comply with all applicable forest protection laws and regulations in its operating locations. It promotes a culture of forest conservation through initiatives such as afforestation programs and green office

practices, and raises awareness among employees.

The Company encourages surrounding communities and value chain partners, including service providers, suppliers, and business partners, to comply with relevant forest protection laws, regulations, and mandatory standards in their respective operating locations.

The Company respects the legitimate rights and interests of local communities and residents and is committed to conducting all business activities in a lawful and orderly manner.
